

Rusty Nelson spends his time in Marina del Rey, CA and Kennett Square, PA and is available in other areas. Most of May through July is spent guiding tours for Silver Lining Tours chasing extreme weather in Tornado Alley. "My Camera is my best excuse for adventure" so please inquire as it may be leading me to your area.

He is also an Adobe Certified Expert in Lightroom and enjoys visiting camera groups and speaking on both subjects. I've just started filling spring of 2018. Currently I do a one to two hour talk on Storm Chasing finishing it off by working in Lightroom developing a few storm related images.

I also do a beginning talk/class that takes 3-4 hours on Lightroom called "The Nuts and Bolts of Lightroom. See [Video on YouTube](#) info on this talk. Video can be changed for you group.

Please contact me through this site for further information and availability.
